SKILLS

- **Languages:** C# (ASP.NET, WinForms, WPF, Xamarin), Java (JFrame), SQL (MicrosoftSQL, PostgreSQL), Svelte, Python, JavaScript, HTML5/CSS, JSON, XML & XLST.
- **IDEs:** Visual Studio 2019, Visual Studio Code, Atom, NetBeans, IntelliJ IDEA, PyCharm.
- **Technologies:** Git, NuGet, MSTest, NUnit, NPM, Yarn.

WORK EXPERIENCE

SplitOff Pty Ltd **Nov. 2020 – Feb. 2021**
Front-End Developer *Sydney, NSW*

- Programmed in Svelte, JavaScript, PostgreSQL, HTML5/CSS.
- Contributed to multiple live Git projects.
- Added new functionality to the front-end of the shopping cart payment system, such as new pop-up messages, new text fields.
- Implemented designers' sketches/prototypes to the front-end.
- Configured the shopping cart payment system to work on clients' websites by using APIs.
- Analyzed web socket requests sent from the shopping cart.
- Created JSON config files which control how the shopping cart is displayed and where.
- Made sure the front-end works flawlessly with the back-end by performing extensive UAT testing.
- Created a documentation(docs) website for the organisation.
- Used Node Package Manager and Yarn to install 3rd party libraries.

NOTABLE PROJECTS

- **Chess with AI:** C# chess application with all chess rules built-in, a competent chess AI, and a fully responsive GUI. User can play against the computer or against another human player.
- **Warehouse order management system:** C# order management system, which includes 3rd party login authentication for extra security. Allows the administrator to place orders, change order status, check whether the order can be fulfilled, and cancel existing orders. The application then reflects those changes onto SQL database.
- **Payroll tax assistant:** C# application takes in a .csv file that contains information about employees (such as the amount of hours worked, visa type, hourly rate, ytd). Afterwards, the application creates a new .csv file that contains the gross & net pays, the tax to be paid (different taxes correspond to different visa types/income brackets). Could be useful for accountants.

EDUCATION

TAFE NSW **2021**
Diploma of Software Development *Sydney, NSW*

TAFE NSW **2020**
Certificate IV in Programming *Sydney, NSW*

Arthur Phillip HS **2019**
High School Certificate *Sydney, NSW*
